

MOST RIDES...

Last longer than 8 seconds.

Just one more reason to own an Eby trailer

An extremely efficient combination trailer, the Eby Stock Combo is ideal for transporting horses or cattle. Built with the same concern for structural integrity common to all Eby trailers, the Stock Combo is available in either white or mill finish side sheets. Mill finish slats in the horse area are standard. Convenient access to tack is provided through a curbside camper door. The Stock Combo is available in basic models designed with features for either horses or livestock.

Available In Slant and Straight Wall Models

Models shown may feature options not included as standard.
